### **PROFESSIONAL EXPERIENCE**

Mr. Barry is currently a master technician at **Harper Environmental Associates, Inc (HEA)**.

He has over 5 years of experience in the environmental industry and has completed groundwater sampling and soil and groundwater remediation projects throughout New England.

His primary responsibilities at HEA include compliance with Health and Safety Plans (HASP), soil and groundwater sampling, indoor air quality assessments, installation and operation of remedial systems, UST removals and hazardous waste management.

- Prior to joining HEA, Mr. Barry was employed by the Mountain Top Inn and Resort as the Equestrian Center manager, and as a park ranger in the Grand Tetons located in Wyoming.
- Mr. Barry supports the completion of soil and groundwater investigations and remediation projects; indoor air investigations; and has completed numerous UST removals and soil management projects.
- Operation of heavy equipment including excavators and loaders during soil remediation projects.
